We need to be sure to have approximately $30USD worth of BUSD in our wallet BEFORE we start the registration process. You will need to have about $35USD available to purchase your BNB – either by credit

card or by transferring it from another crypto exchange or sending it from another MetaMask wallet.   The exchange rates change hourly and every exchange/purchase processor charge different gas fees to complete the process – so it's best to have extra to cover all the fees.

1. **Purchase** Your BNB and have the funds sent to your Wallet ID.
2. Click the **SWAP** option once the BNB is in your wallet.
3. In the **SWAP FROM** box, enter the BNB amount you want to Swap - *in the same box, in a lighter grey writing, it will show you what the current rate is in USD.* Make sure you have more the $29.50 USD.
4. In the **SWAP TO** box, select **BUSD**
5. Click **REVIEW SWAP**
6. Click **SWAP**
7. Once the swap has been completed, you will see under your **ASSETS TAB** (on the front of your account) that you have some BNB as well as your BUSD.
